

The Project Management Teams of EPAAC and EUCERD held a teleconference on 15 October 2012 discussing potential collaboration between the two EU-funded Joint Actions. Collaboration was found to be warranted particularly between EUCERD and the Healthcare, Information & Data and National Cancer Plans Work Packages in EPAAC in the fields of rare cancers and National Cancer Plans. EUCERD has been added as a collaborating partner of EPAAC and will be discussed at the next EPAAC Steering Committee meeting in Malta.
